Latest Update – KRI operations

Sharjah, UAE, 3 May 2024: Dana Gas (PJSC) announces that production at the Khor Mor facility in the Kurdistan Region of Iraq has been restored to normal levels following the recent attack. The facility's daily production output capacity now exceeds 500 million standard cubic feet (MMscf) of gas, 1,100 metric tons (MT) of LPG and 15,000 bbl of condensate.

The resumption of operations follows decisive actions by the Government of Iraq and the Kurdistan Regional Government as well as further firm commitments to significantly enhance security and strengthen defences at the Khor Mor site. We extend our gratitude to the authorities for their support and efforts.

Dana Gas and its partners are dedicated to maintaining the highest safety for the wellbeing and security of all our personnel and facilities. We are proud to serve the people of the Kurdistan Region and Iraq and support the country's electricity generation by providing local power stations with affordable and lower-carbon fuel and fulfilling the LPG needs of the Kurdistan region of Iraq.
